Advocating Veteran Creativity

Join Veteran Artist Program (VAP) founder B. R. McDonald as he talks about art, war, and story-telling on June 5, 2014, 7 p.m. at the Mobile Museum of Art. McDonald is travelling to Mobile from New York for *ARTillery*, a program about the post military service creative process, healing, and advocacy. VAP takes artists who are also veterans, and propels their work and career into the mainstream creative arts community through networking, mentorships, collaborations with professional artists, and original productions. Based in New York City, VAP creates programming across the country to expand the network and visibility of veteran artists. Come whether you are a veteran, an artist, or an advocate and discover how to support veteran art and create opportunities in your community.

7 PM

June 5, 2014

Light refreshments, beer and wine by donation

4850 Museum Drive, Mobile, AL 36608 • 251.208.5200
